

Student Assistant for Process Mining Software Survey

Fachbereich Wirtschafts- und Sozialwissenschaften, Nürnberg, Teilzeit, Unbefristete Anstellung,
Bewerbungsschluss: 31.12.2024

Ihre Aufgaben

Our chair has conducted one of the most extensive surveys on the fast-growing Process Mining market - a technology for data-driven process analysis. The results of the survey can be found on <http://www.processmining-software.com> which is well-received by practitioners. As the market is developing quickly, we need to continue to evaluate the available tools and add new solutions to the website. We are looking for a student assistant that will take responsibility for the website and who will drive the Process Mining software survey further to keep the website up-to-date.

Ihr Profil

Notwendige Qualifikationen:

- Interest in Process Mining
- Drive to develop the website further

Wünschenswerte Qualifikationen:

- Knowledge about Process Mining, ideally experience with working with a PM software
- Experience with Wordpress / website administration
